A Publication of the Wisconsin Board of Nursing (BON)

January 2016

Chair's Corner

For many of us, welcoming a new year is a time of circumspection. It is a time to carefully reflect on the past year's accomplishments and missed opportunities as well as establish goals for the upcoming year. With this in mind, I welcome 2016.

I have had the honor to serve as Chair of the Wisconsin State Board of Nursing (BON) for almost two years. I can say, without hesitation, it is truly a privilege to work with all the Board members. The Board is comprised of very talented, professional, and committed individuals working together to protect the public and ensure the safety of patient care in Wisconsin. In addition to the Board members, we have a team of staff who work with us to provide the best possible service. This level of commitment and teamwork enables the BON to be successful in its endeavors.

With this said, I would like to provide an overview of the work and

accomplishments of the BON. First, the BON has continued the work of the Legislative and Rules Committee with a focus on revising and updating Administrative Rules. [Chapter N5](#), "Renewal of Licensure", is in the process of being repealed which will allow for a new subchapter being created in [Chapter N2](#). This Rule project will also entail the amending of [Chapter N6](#), "Standards of Practice for Registered Nurses and Licensed Practical Nurses" to include updated language. These Chapters were presented at a public hearing for comment at the Board meeting of January 14, 2016 and will now move forward for the Governor's approval and legislative review.

[Chapter N8](#), "Certification of Advanced Practice Nurse Prescribers", is currently under review. A draft of N8 has been developed and includes changes to continuing education, updated language, and reflects current practice. The Board is in the process of soliciting feedback from key stakeholders and it is anticipated that a public hearing will be held in March 2016.

Second, an informational video was developed and placed on the BON website which provides an overview of

the Board, its roles, and functions. The targeted audiences are Schools of Nursing; however, the video is also relevant to all nurses. It can be accessed at <http://dsps.wi.gov/Boards-Councils/Board-Pages/Board-of-Nursing-Main-Page/>.

Finally, the State of Wisconsin's Controlled Substances Board has expanded its membership to include a representative from the Medical Examining Board, Dentistry Examining Board and Board of Nursing. It is an honor for nursing to be at the table.

Although this is only a brief overview, I think it illustrates the amount and breadth of work under the auspices of the Board of Nursing.

As I look forward in 2016, I am excited that the Board will have an opportunity to continue to update and revise administrative rules, continue to review [State Statute 441](#) and seek sponsorship, and to work with NCSBN to review national issues relevant to nursing, including the new compact. Please journey with us by reading Nursing Forward, attending Board meetings, and/or sending us feedback.

Thank you for all you do and Happy 2016!

The Importance of Nursing Documentation

By Jodi Johnson, RN, MS

Jodi Johnson

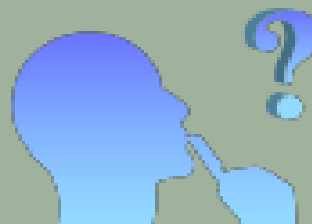

Do you recall the statement, “if it’s not documented, it’s not done”? Documentation remains a crucial component of the nursing profession. Documentation requirements have become somewhat burdensome and time-consuming, making it difficult at times to appreciate the value of complete and effective documentation. This can become particularly challenging with the implementation of Electronic Health Record (EHR) systems.

Nurses have both a legal and professional obligation to provide high quality care and complete documentation pertinent to a patient’s course of treatment. In reviewing cases brought to the Board of Nursing, documentation is one of the most important elements during the review process to determine the need for disciplinary action. Lack of documentation not only makes it difficult for the Board to review the factual basis of a complaint, but may also be a violation in and of itself. Remember, documentation is a vital tool of communication, so be wise and ensure that you document the care you deliver.

Answers From the BON

A question and answer feature will be added to upcoming issues of the *Nursing Forward Newsletter*. Questions on nursing profession rules, legislation, board procedure, licensing, standards, and more are welcome. The Board hopes to be more accessible and clarify its mission through this new feature. Questions may be sent to Dan1.Williams@wisconsin.gov with “Q&A Nursing Forward” in the subject line. Keep in mind that questions regarding specific cases of an individual nature cannot be addressed here.

A wealth of useful information is available on the Department of Safety and Professional Services Website at:

Enforcement Actions of the Board of Nursing

The Board of Nursing, with help from staff at the Department of Safety and Professional Services, can take action against nurses licensed in the state to help protect the profession and the citizens of Wisconsin. You may search for any of the Board Orders listed below on the Department's website by using this link:

Board Order Search: <http://dsps.wi.gov/Other-Services/Lookup-Orders-Disciplinary>

There are several options the Board can use; some are disciplinary other are non-disciplinary and they include:

Disciplinary options available to the Board:

Reprimand - A public warning of the licensee for a violation.

Limitation of License - Imposes conditions and requirements upon the licensee, imposes restrictions on the scope of practice, or both.

Suspension - Completely and absolutely withdraws and withholds for a period of time all rights, privileges and authority previously conferred by the credential.

Revocation - To completely and absolutely terminate the credential and all rights, privileges and authority previously conferred by the credential.

Non-disciplinary options available to the Board:

Administrative Warning - Issued if violation is of a minor nature, a first occurrence and the warning will adequately protect the public. The issuance of an Administrative Warning is public information, however the reason for issuance is not.

Remedial Education Order - Issued when there is reason to believe that the deficiency can be corrected with remedial education, while sufficiently protecting the public.

DSPS Launches Improved License Look-Up Tool

The Department of Safety and Professional Services (DSPS) has launched its new and improved License Look-Up tool. License Look-Up provides real-time information about the license status of professionals in Wisconsin. You can use this tool to check that professionals including licensed practical nurses and registered nurses hold a valid Wisconsin license in

good standing. This access allows consumers and employers like you to make better-informed decisions when hiring and putting your trust in Wisconsin nursing professionals.

We recently updated this feature to make it more accessible and easy to use on cell phones, tablets, and other mobile devices. [Click here](#) or visit <https://app.wi.gov/licensesearch> to try it out.
